President's Report

Dear Esteemed Members and Friends of Rotary Club of Bhubaneswar Heritage Social Service Society

It is with great pleasure and pride that I present the Annual Report and Audit Report for the seventh year of our dedicated service through the RCBH Social Service Society. Since our inception in 2015, our society has been steadfast in its commitment to fostering socio-economic development and providing support to the vulnerable segments of our community. The recently concluded financial year, 2021-22, has seen remarkable progress, and I am delighted to share our achievements with you.

The tireless efforts and generous contributions of our members have played a pivotal role in reaching several milestones. The approved annual and audit reports stand as a testament to the transparency and accountability with which we operate. We founded this society with the vision of making a meaningful impact on the lives of those in need, and I am pleased to report that we have lived up to that commitment.

In the face of challenges, our club not only persevered but thrived, leaving a positive imprint on our community. Our innovative activities have successfully addressed the pressing issues faced by the deserving communities, contributing significantly to the achievement of the Millennium Development Goals (MDGs). I express my deepest gratitude to each member for their unwavering support, dedication, and enthusiasm.

As we reflect on the accomplishments of the past year, I am filled with optimism about the future of our club. The possibilities that lie ahead are exciting, and I am confident that with your continued cooperation and support, we will reach new heights in our mission to serve the community.

Thank you all for your outstanding contributions to the RCBH Social Service Society. Your commitment is the driving force behind our success, and we look forward to your continued partnership in the future.

Warm regards,

President

Rotary Club of Bhubaneswar Heritage Social Service Society, Bhubaneswar

Secretary's Report

Respected Members & Supporters,

It is my pleasure to present the comprehensive Activity Report for the Rotary Club of Bhubaneswar Heritage Social Service Society for the fiscal year 2021-22. This year, our club embarked on a diverse range of projects, showcasing our commitment to community service and societal well-being. The success of our Career Counseling sessions, conducted seamlessly through webinars, demonstrated our adaptability in the face of changing circumstances. Our environmental initiatives, including the Plantation for Oxygen, Fruit Tree Plantation, and Coconut Tree Distribution to ST beneficiaries, underscored our dedication to sustainable development. We also played a significant role in public health awareness through initiatives like Diabetes Sensitization and Screening, Blood Donation Camps, and Malaria Sensitization. The club's involvement in social events such as the Annual Club Picnic, Blanket Distribution, and observance of National Immunization Day, Women's Day, and World Polio Day highlighted our commitment to both fun and meaningful engagement. I express my gratitude to each member for their tireless efforts, and I look forward to another year of impactful service and fellowship.

Sincerely,

Bishnu Mohan Mohanty
Secretary

ORGANISED BY:

WHAT IS MALARIA?

Malaria is a severe, fever-causing illness caused by parasites of the genus *Plasmodium* (which are single-celled organisms that live in our red blood cells and get food from the host organism that is us, humans). These *Plasmodium* parasites are spread to humans through the bites of infected female mosquitoes of the genus *Anopheles*.

There are 5 types of parasites that cause malaria in humans with *P. falciparum* being the most common in Odisha alongside cases of *P. malariae* has also been reported in the state.

SYMPTOMS

Symptoms of malaria begin a few weeks after being bitten by an infected mosquito

FEVER, SWEATING, SHIVERING,

HEADACHES, TIREDNESS AND MUSCLE PAIN

DIARRHOEA, NAUSEA AND VOMITING

KIDNEY FAILURE, SEIZURES, MENTAL CONFUSION, COMA AND EVENTUALLY DEATH.

If immediate treatment isn't provided, the infection can get severe, causing:

PREVENTION METHODS

USAGE OF CHEMICAL REPELLENTS IN ORDER TO PREVENT MOSQUITO BITES

NETTING TO PREVENT ENTRY OF MOSQUITOS INTO THE HOUSEHOLD

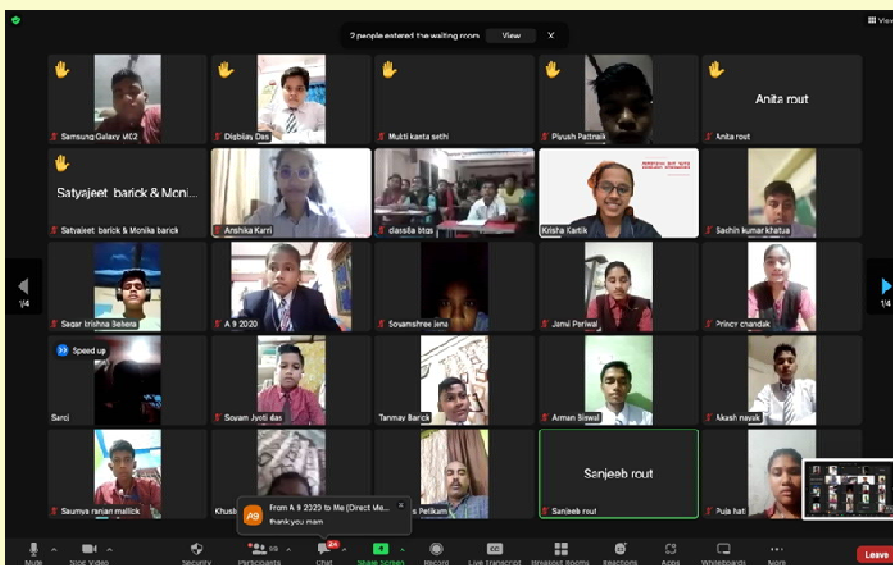

WHEN YOU HAVE SYMPTOMS, GET A MALARIA TEST AND TREATMENT CAN BE GIVEN MORE QUICKLY

WEARING LONG CLOTHES
